TO A BETTER TONIC THAN QUININE. Calisaya bark of the primest quality is a promiment ingredient of PLANTATION BITTERS. With it are combined the juices and extracts of a variety of aperient, anti-billous, anti-spasmodic and antiseptic vegetable substances, and these ropenies are conserved and rendered diffusible by the pure spirit of the sugar-cane—the most genial and harmless of all stimulants; but this nestimable bark is, after all, the most important medical agent contained in the Bitters.

In the various complaints for which quinine is rith the certainty of producing all the good effects claimed by the faculty to result from the u-c of that dangerous alkaloid, without the fear of any subsequent evil consequences. The entire harmlessness of the Bitters is guaranteed; the testimony on this point, from the highest sources,
